

CSP Portfolio Review Guidelines – Student Membership

Student members (enrolled in college or university **full time**) will be juried into the organization by current and past members of the CSP Board. Membership is open to artists from anywhere in the world who create hand-pulled prints, including etching, lithography, relief printing, and screen printing. It also includes hybrid prints, monoprints, and artist books so long as some hand printmaking is involved.

Artists who use solely photographic or digital methods are not eligible for artist membership.

Student members are entitled to full membership benefits but pay a significantly reduced membership fee.

An application for student membership requires the following.

- **5 images of recent work (ideally within the last 3 years)**
- **Artist Statement (500-word count maximum)**
- **Image list**
- **Optional Technical Note (500-word count maximum)**
- **\$20 application fee (non-refundable)**

Review Criteria:

- Whether work demonstrates a level of proficiency in the medium submitted.
- Whether work as a whole shows a consistent artistic vision.
- Images must be clear and of good quality.
