

Monotype with a Model

A printmaking workshop with Robynn Smith and Diane Olivier

Draw and paint from the model directly onto printing plates, creating a unique suite of monotypes

**Studio 1890 Bryant St., San Francisco
September 13 & 14**

Join the gang at Diane's beautiful 1890 Bryant Street Studio for this exciting new workshop.

We'll move freely from the model to the press and back again, with support from experts in both figure drawing and printmaking.

The monotype medium is inherently painterly and loose, a perfect pairing for this workshop. On Saturday we will work directly from the model, and on Sunday we will enhance, overprint and work from Saturday's output.

The workshop is held in a beautiful environment with excellent materials, equipment, instruction and assistance.
