

Collograph Printmaking Workshop **with Robynn Smith**

**Assisted by Diane Olivier in her fabulous studio at 1890 Bryant St.,
San Francisco.**

Collograph is known as The Textural Print. It is a printmaking process that yields uniquely textural, visually rich artists' prints that can be inked in a variety of ways. In this exciting workshop we will build collograph plates through a mixed media collage process, learn to ink and print them, and combine them with other forms of printmaking. Many of the techniques explored in this workshop will advance your overall printmaking vocabulary. If you enjoy texture, collage or printmaking in general, you will love this workshop. All levels are welcome!

The studio is spacious, well equipped and provides high quality water-soluble inks.
