Turning Points

March 9 - April 10, 2026 (closed 3/23-27 Spring Break & 3/31 Cesar Chavez Day)

Reception: Saturday April 4, 3-5pm

Turning points can be dramatic “Aha!” moments or subtle insights that quietly nudge us in a new direction. Big events in our personal lives—falling in love or losing a loved one—can spin us around in disorienting ways. On a grander scale, political, economic, or societal sea changes can alter the course of millions of people’s lives. But even something as simple as a tap on the shoulder by a friend can present a turning point.

For this exhibition we invited Ann Jastrab, Executive Director of the Center for Photographic Art in Carmel, to select work from submissions from around the country in a call for entries.

Turning Points is presented in partnership with the Center for Photographic Art's *PhotoCarmel*, a multi-venue regional celebration of photography.

Free Parking is available during the reception in lots A + B. The Gallery is located underneath the Library. [Link for map and directions](#) to the gallery.
