

# lements

A national juried art exhibition

**January 10 to February 2, 2019**

at the Marin Society of Artists  
San Rafael, CA

## **Call for Entry**

**Help us kick off**

**the International Year of the Periodic Table of the Chemical Elements!**

Everything we experience as matter is made up of Elements, substances consisting of a single type of atom. We invite artists to submit work based on one, some, or all of the 118 Elements of the Periodic Table.

From alchemy to particle physics to wacky whimsy, interpretation of the theme is wide open - an Element's mystique, mythology, discovery, uses throughout history, use in art, the magical areas between the particles of the atoms, philosophical or mystical flights of fancy – whatever brings it to life for you.

Questions? Email
